GLOSSARY OF SYMBOLS & TERMS

The following are short definitions of some of the symbols and terms used in this report. Please refer to the methodology document for more information.

OVERALL COMPANY SCORE CHANGE DATE: Available on Page 1, the OVERALL COMPANY SCORE CHANGE DATE reflects the most recent date a change was made to the company’s Overall ESG Controversy Score. MSCI ESG Research monitors eligible sources daily, but the date is updated on the report only when a change in the Overall ESG Controversy Score has been recorded.

LAST REPORT UPDATE DATE: Available on Page 1, LAST UPDATE indicates the date a substantive update was made to the company report, either to one or multiple controversy cases. The date is updated when underlying data in the report is modified, regardless of whether this results in an Overall ESG Controversy Score change.

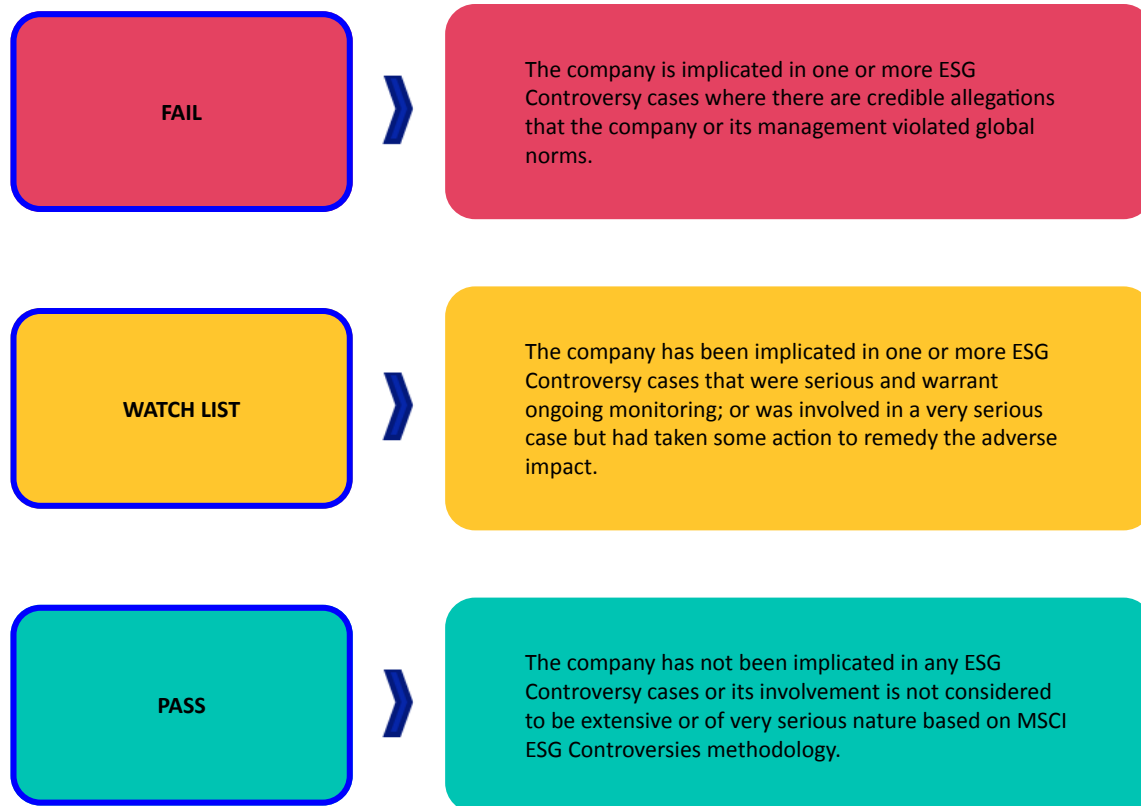

LAST REVIEWED: Available for each controversy case, the LAST REVIEWED date is the date of the most recent information related to the controversy.

OVERALL PERFORMANCE: SCORE AND FLAG:

Each company receives an overall score and flag based on our assessment of performance across the three pillars (E, S, and G), with the score driven by the lowest scoring indicator.

Company Flag	Flag Description
	Red Flag: indicates that a company is directly involved in one or more very severe controversies that has not yet been remediated
	Orange Flag: indicates that a company has either settled most of the stakeholders’ concerns related to its involvement to a very severe controversy or continues to be involved in a very severe controversy related to its business partners or directly involved in one or more severe cases.
	Yellow Flag: indicates that a company has either settled most or all of stakeholders’ concerns related to its involvement in severe or very severe controversy cases, or is directly implicated in one or more cases that are considered to be of moderate severity
	Green Flag: indicates that a company is not directly involved in any major controversies, but may be implicated in some minor incidents or practices with potential adverse impact.

GLOBAL COMPACT ALIGNMENT SIGNALS:

POTENTIAL STATUS UPDATE CONDITIONS FOR ESG CONTROVERSY CASES:

MSCI ESG Research does not provide recommendations regarding actions to be taken in response to allegations. However, the following conditions may be considered during the review of a controversy case:

- **Dismissal of Allegations:** A case may be assessed as concluded or partially concluded if allegations are formally dismissed or refuted by a court, an external investigation, or an independent audit.
- **Revocation of Allegations:** A case may be reassessed if the party or parties raising the allegations withdraw their claims.
- **Remedial Action or Resolution:** A case may be reviewed for status updates where the company has taken steps to address the issues raised—such as reaching agreements with affected stakeholders, implementing remediation measures, or ceasing the relevant practices or engagements.
- **Lack of Sustained Attention:** A lack of ongoing negative publicity, stakeholder criticism, or new developments over an extended period (typically 2–3 years) may be a condition for status reassessment.

Note: A controversy case generally remains open if criticism or credible concerns persist, even if the company has responded or made remediation efforts.

NONE OF THE INFORMATION PROVIDERS MAKES ANY EXPRESS OR IMPLIED WARRANTIES OR REPRESENTATIONS WITH RESPECT TO THE INFORMATION (OR THE RESULTS TO BE OBTAINED BY THE USE THEREOF), AND TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, EACH INFORMATION PROVIDER EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES (INCLUDING, WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF ORIGINALITY, ACCURACY, TIMELINESS, NON-INFRINGEMENT, COMPLETENESS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE) WITH RESPECT TO ANY OF THE INFORMATION.
- Without limiting any of the foregoing and to the maximum extent permitted by applicable law, in no event shall any Information Provider have any liability regarding any of the Information for any direct, indirect, special, punitive, consequential (including lost profits) or any other damages even if notified of the possibility of such damages. The foregoing shall not exclude or limit any liability that may not by applicable law be excluded or limited, including without limitation (as applicable), any liability for death or personal injury to the extent that such injury results from the negligence or willful default of itself, its servants, agents or sub-contractors.
- Information containing any historical information, data or analysis should not be taken as an indication or guarantee of any future performance, analysis, forecast or prediction. Past performance does not guarantee future results.
- The Information may include “Signals,” defined as quantitative attributes or the product of methods or formulas that describe or are derived from calculations using historical data. Neither these Signals nor any description of historical data are intended to provide investment advice or a recommendation to make (or refrain from making) any investment decision or asset allocation and should not be relied upon as such. Signals are inherently backward-looking because of their use of historical data, and they are not intended to predict the future. The relevance, correlations and accuracy of Signals frequently will change materially.
- The Information should not be relied on and is not a substitute for the skill, judgment and experience of the user, its management, employees, advisors and/or clients when making investment and other business decisions. All Information is impersonal and not tailored to the needs of any person, entity or group of persons.
- None of the Information constitutes an offer to sell (or a solicitation of an offer to buy), any security, financial product or other investment vehicle or any trading strategy.
- It is not possible to invest directly in an index. Exposure to an asset class or trading strategy or other category represented by an index is only available through third party investable instruments (if any) based on that index. MSCI does not issue, sponsor, endorse, market, offer, review or otherwise express any opinion regarding any fund, ETF, derivative or other security, investment, financial product or trading strategy that is based on, linked to or seeks to provide an investment return related to the performance of any MSCI index (collectively, “Index Linked Investments”). MSCI makes no assurance that any Index Linked Investments will accurately track index performance or provide positive investment returns. MSCI Inc. is not an investment adviser or fiduciary and MSCI makes no representation regarding the advisability of investing in any Index Linked Investments.
- Index returns do not represent the results of actual trading of investible assets/securities. MSCI maintains and calculates indexes, but does not manage actual assets. The calculation of indexes and index returns may deviate from the stated methodology. Index returns do not reflect payment of any sales charges or fees an investor may pay to purchase the securities underlying the index or Index Linked Investments. The imposition of these fees and charges would cause the performance of an Index Linked Investment to be different than the MSCI index performance.

- The Information may contain back tested data. Back-tested performance is not actual performance, but is hypothetical. There are frequently material differences between back tested performance results and actual results subsequently achieved by any investment strategy.
- Constituents of MSCI equity indexes are listed companies, which are included in or excluded from the indexes according to the application of the relevant index methodologies. Accordingly, constituents in MSCI equity indexes may include MSCI Inc., clients of MSCI or suppliers to MSCI. Inclusion of a security within an MSCI index is not a recommendation by MSCI to buy, sell, or hold such security, nor is it considered to be investment advice.
- Data and information produced by various affiliates of MSCI Inc., including MSCI ESG Research LLC and Barra LLC, may be used in calculating certain MSCI indexes. More information can be found in the relevant index methodologies on www.msci.com.
- MSCI receives compensation in connection with licensing its indexes to third parties. MSCI Inc.'s revenue includes fees based on assets in Index Linked Investments. Information can be found in MSCI Inc.'s company filings on the Investor Relations section of msci.com.

MSCI ESG Research materials, including materials utilized in any MSCI ESG Indexes or other products, have not been submitted to, nor received approval from, the United States Securities and Exchange Commission or any other regulatory body. MSCI ESG and climate ratings, research and data are produced by MSCI ESG Research LLC, a subsidiary of MSCI Inc. MSCI ESG Indexes, Analytics and Real Estate are products of MSCI Inc. that utilize information from MSCI ESG Research LLC. MSCI Indexes are administered by MSCI Limited (UK) and MSCI Deutschland GmbH.
- Please note that the issuers mentioned in MSCI ESG Research materials sometimes have commercial relationships with MSCI ESG Research and/or MSCI Inc. (collectively, "MSCI") and that these relationships create potential conflicts of interest. In some cases, the issuers or their affiliates purchase research or other products or services from one or more MSCI affiliates. In other cases, MSCI ESG Research rates financial products such as mutual funds or ETFs that are managed by MSCI's clients or their affiliates, or are based on MSCI Inc. Indexes.
